NOTICE—The partnership between Samuel Boote and George L. Van Gorder was dissolved on the 29th of last month, and the said Van Gorder ceased to have any connection with the above business from that date.
Samuel Boote, in taking over the sole management, is glad of the opportunity to heartily thank the public for their liberal support during the last five years, and now, by making several changes in the studio, and additions to the staff of assistants, hopes to shew a decided improvement in the class of work turned out.
The new specimens will be on view in the course of a few days, when the public are respectfully invited to call and judge for themselves.
First-class work at fair prices, and every attention to customers, is now order at

TELEGRAMS

(*via Galveston.*)

Paris, 16th—The fresh attempt of the Anarchists discovered yesterday is the theme in all circles. The papers devote prior attention to it, and the details they give have increased the public panic. The object in view was to blow up the whole of the Lobeau Barracks, which is near the Hotel de Ville. The police continue their inquiries in the neighbourhood where the attempt took place, but as yet without result. The ever-increasing Anarchist propaganda has had a bad effect on the prestige of the new Cabinet.

Some papers say that the present lamentable attempts would not be repeated with such frequency and impunity if M. Constans were again Minister of the Interior.

Rome, 14th—The overflow of the Tiber is causing great damage, and part of the city is flooded. Communication with Naples and Florence is completely interrupted. The authorities are engaged in placing in a place of safety the inhabitants of those districts threatened by the continued rising of the river.

Constantinople, 16th—The excitement caused by the abortive plot to kill the Sultan continues. It is said that the conspiracy was hatched in Russia, who hoped to create great confusion in Turkey and thereby pave the way for an invasion. This report has caused extreme alarm in political circles, and there is great anxiety, especially here and at Sophia.

Paris, 16th—Commercial statistics published to-day shew that imports into France fell off 740,000 francs, and exports 17,841,000 francs last year.

London 16th.—It is announced that Parliament will be dissolved in July. Lord Roseberry has been elected President of the County Council.

St. Petersburg 16th.—Banker Guenzburg has suspended payment.

Pau 16.—Lord W. Bram, (?) first viscount Hampden, died here yesterday at the age of 72.

Genoa 16.—The steamer Colombo has arrived here from Santos with 40 cases of yellow fever, 15 of which proved fatal. She has been ordered to Asinara to undergo quarantine.

London 16.—The British press are pessimistic in their views about the Emperor William's health. They state that the disease he has in the ear is becoming worse, and is incurable. His Majesty has frequent fits. The papers state that this is very serious and that grave consequences may ensue, considering the recent extravagant conduct of the Emperor, whom they represent with disordered faculties, the result of his complaint.

Pekin 16.—Government has issued a decree refusing to have any responsibility in loans contracted by the provinces without its consent.

London 16.—The Bank of Portugal has been authorized to increase its issue to 30 million dollars.

Paris 16.—President Carnot to-day signed the commercial reciprocity-treaty with the United States.

Rome 16.—In Vatican circles it is reported that three new cardinals will be appointed at the next Consistory. The candidates are:—Archbishop Gran of Hungary, the Bishop of Breslau, the Bishop of Rouen or Archbishop of Bordeaux.

ST. PATRICK'S DAY.

We have much pleasure in saluting our Irish readers on their national anniversary and congratulating them on the part they play in the advancement of Argentina. Although forming only one per cent of the population of the Republic they produce at least 10 per cent of its wealth, which is conclusive evidence of their value as citizens. Consul Cowper truly said in his report to the House of Commons that "The progress of "Buenos Ayres is mainly due to the "Irish sheep-farmers." They have, moreover, found in this country a hospitable home, and there is probably no class of settlers more attached to the land of their adoption. Nor is it surprising that they are, for we find the characteristic common to Irishmen in Australia, Canada and United States.

During the last fifty years the Irish settlers in Buenos Ayres have met with nothing but kindness and goodwill, except in the solitary instance of the slight paid to Admiral Brown's memory. The statue of that great commander has been relegated to an obscure village, 20 miles from town, because Buenos Ayres could not find a site for it in any of her Plazas.

We must live in the hope of seeing this decree of exile revoked, and the statue of the illustrious Irishman placed at the north front of the Government House, in view of the roadstead where his little fleet of whaleboats annihilated the Invincible Armada of 31 Brazilian war-vessels.

As regards the celebration of to-day we learn that High Mass will take place at the chapel of the Passionist Fathers, Calle Caridad, at 11 a.m. The band of Col. Mulleady's regiment of the Line will attend. The Celtic cross of the handsome new church will be consecrated. There will be a banquet at Mercer's Restaurant at 7 p.m.

RURAL BANKS.

The movement initiated by Don Nicolas Lowe promises well for the country. The new rural bank at Mercedes has been quickly followed by another at Olabarria, and before the year is out we shall probably see many more. These banks partake of the nature of the Schultz-Delitsch banks that have proved so beneficial to the working-classes in Germany and Austria. The founders and shareholders are men of the immediate locality, possessing ample means of their own, and requiring neither Government privileges nor extraneous capital.

Since the collapse of the National Bank and the Provincial Bank of Buenos Ayres, which had been conducted on principles of extreme laxity, the public of the rural departments have been in the habit of confiding their savings to the care of the village grocer or shopkeeper. This led to a prodigious lock-up of currency, for every "almacenero" had his safe piled up with bundles of paper-money.

The rural banks offer 7 per cent annual interest to all depositors, and as the Directors are without exception the soundest men of the neighbourhood the inducement to the working-classes and the general public, to support these institutions, is very great. They will be, in fact, a kind of savings-banks, and at the same time a source of wealth to their respective districts.

Popular banking has not been heretofore understood in these countries, but the public will not be slow to learn its benefits. We have had state-banks, with Government control. We have still a number of foreign banks, managed on sound banking principles, by which the greatest legitimate profit is obtained for a body of shareholders. But, the rural banks now essayed, under careful boards of directors, are calculated to mark a new era of progress, from which great things may be expected.

It is specially gratifying to us to know that an Irishman, whose name has long been identified with the advancement of rural industries, is the originator of these popular banks, and we only echo the wish of the foreign community and of all the best class of Argentines in predicting for the movement a permanent and well-deserved success.

We may observe, in conclusion, that Mr. Schultz Delitsch established his first bank in Germany in 1859, and in December 1888 there were 2,200 of these Popular Banks, with 486,000 shareholders, an aggregate capital of £5,030,000, the amount of advances in 1888 amounting to £39,400,000 sterling. These banks belong wholly to the working-classes, the average capital corresponding to each shareholder being only £11 of English money. They are found to be a blessing to the people of Germany, and have been recently introduced into Italy.

THE NATIONAL BANK.

The National Bank directors recently suspended by Government decree have published the following letter:—

The publication of Mr. Avellaneda's note to the Finance Minister places us in the necessity of publicly correcting several statements contained in that note. We shall not discuss that part of the note bearing on the legality of the decree suspending us. Our lawyer Dr. Ayerza has this question in hand, and the settlement of the question depends on the courts. We will merely look into those statements which regard us personally.

In the first place, it is remarkable that the note in question is addressed to the Finance Minister, when the Board in no way depends on the Executive, and if the Board have to give explanations, it is the Caja de Conversion, which according to Art. 50 of the law ad hoc must see to the execution of this law. Is it because its representative or inspector, in his relations with the Board, only went twice to the Bank, once to be presented by Mr. Avellaneda to the Directors, and the other time out of pure courtesy, when the Board was not sitting.

It is Mr. Avellaneda's submission to the resolutions or indications of the Executive which has brought about the present conflict.

It is well known that the Nat. Bank, managed exclusively by Directors appointed by the Executive, and the National Bank in liquidation have diametrically-opposed interests, so much so in fact that the defence of the interests of the latter as opposed to the former has caused warm discussions in the Board, and the questions arising therefrom have not yet been settled.

The attitude of Mr. Avellaneda in declaring himself an employee of the Executive is unsustainable, in view of the antagonistic interests which the Executive has in one and the other establishment.

During those discussions, and on other occasions, Mr. Avellaneda informed us repeatedly that he would not oppose the indications he received from the Executive, and that if we persisted in our attitude, we should compel the Executive to intervene in the Bank.

These threats have been carried out. The Executive has intervened and has dismissed us from the Board.

In the course of the sitting of the 5th inst., we formulated our protest. Drs. Francisco Ayerza and Justin Almandos were present and witnessed part of what occurred.

We cannot understand how a copy of the report of the minutes of that sitting could have been forwarded to the Minister, considering that, since that date, the Board could not sit, there being no quorum.

In regard to the balance-sheet and the figures quoted by Mr. Avellaneda, we must state that this balance-sheet was being examined by the Board, which has not reported on its exactitude, precisely because there are a good many observations to be made.

Now, as regards Mr. Avellaneda's statements respecting the defalcation in the Corrientes Branch, he has not been particularly happy. Before the denouncement was made by our colleague Dr. Abel Pardo, the Branches Committee (comprising two of us and Dr. Villanueva) heard about the defalcation, the first notification being made by the ex-cashier of the Branch, which gentleman was presented and recommended to us for appointment as manager of said branch, by the Minister of Justice. Unfortunately this employee now appears implicated in the defalcation, as shown in the report on same.

The Branches Committee, in view of these repeated charges, and with the support of their colleagues on the Board, and ably seconded by Inspectors del Campo, Pillado, and Paz, obtained full confirmation of the frauds and ordered the matter to be placed in the hands of the Federal Judge in Corrientes.

If the circumstance of denouncing frauds and demanding justice constitute merit, how much merit can Mr. Avellaneda lay claim to as member of the previous Branches Committee.

It is not our intention to dwell on what we have done in favor of the liquidation of the Bank. Suffice it to say that our attitude has been that of persons imbued with independent ideas and the desire to discharge their duties.

Alfredo Demarchi—José Salaberria—Mariano Unzué—Bartolomé Devoto.

PROVINCIAL NEWS.

There was another sanguinary row in Cordoba on Monday night. An enterprising Italian there was doing such a good business that, like one of the old Egyptian kings, he thought he would prolong the day and suppress night, by keeping his shop open night and day. The result of this Egyptian dodge was a Cordobese scandal. The Commissary ordered the enterprising Italian to close his shop. The Italian invoked his business and international law, and refused. The Commissary reiterated his order. The Italian reiterated his refusal. The upshot was that Remingtons were fired and the enterprising Italian was carried away on a shutter in a very dangerous condition. It is not our intention to enter into a discussion as to who was in the right, but the Commissary might have had the mule-headed Italian arrested without lodging a bullet in the unfortunate man's body.

The unfortunate province of Salta, as the only means of keeping on its financial legs, has issued 'bonos' as paper-money. The funny part of the business is that these 'bonos' are actually circulating at par. We hope the National Finance Minister will look into this business. If the provinces begin to issue this new species of fiduciary note, we shall be saddled with another paper issue.

The Provincial Bank of Cordoba—the very mention of this concern awakens recollections of fraudulent issues and other "boom" operations—has heroically agreed to allow its debtors ten years to pay up their debts.

There was the beginning of a mild row last Monday in Santa Fé. The police music-band, which was on strike, not having been paid for the last six months, took it into their heads to play in front of the Italian Consulate, on the occasion of King Humbert's birthday. The police pounced on the band, and musicians and instruments were ignominiously thrown into prison. The local Chief of Police subsequently released the band. The 'blues' in Santa Fé have curious notions of their duties. It may be, however, that the band played out of tune, or insulted the guardians of the public peace. This question will never be settled, as there is to be no official inquiry into the circumstances of the case.

The Santa Fé police have arrested 38 of the Jewish settlers at Mosesville implicated in the lynching of the unmitigated rascal who murdered one of the settlers the other day. Why did not the Santa Fé police display the same activity and arrest the murderer. The settlers were compel'ed to take the law into their own hands, in order to protect their lives and properties, precisely on account of the indifference of the police.

People in Rosario appear to be somewhat alarmed at the number of army-officers continually running up to the province. The Rosarians smell a rat and will, we suppose, continue to do so, until the cat gets out of the bag.

Dr. Toso, representative of the Rosario Waterworks Co., does not appear to meet with much success in his negotiations with the Rosario Municipality.

The latest news from Corrientes is that the prison-guard has been disbanded. In this way there will be no more acts of cruelty in the prison guard. But what about the outrages we recently reported?

Our Rosario colleague the *Capital* calculates that the frauds in the Receptorias in the Province of Santa Fe amount to $500,000.

THE BRITIHS ARMY IN 1892.

The latest returns of the British Regular Forces at home and abroad show that at the close of the year the strength has slightly increased in comparison with what it was at the end of 1890. The increase amounts to about 600 men, there being now a little over 211,600 officers and men on the rolls, to compare with 211,000 a year ago. The full establishment would be 216,000, the same as it was 12 months since; and the 211,600 is a larger total by the 11,600 than that of six years ago. The Cavalry are reckoned at 19,200, the Artillery, &c.—Horse, Field, Mountain, and Garrison—at 35,700, the Engineers at 6,700, the Foot Guards and Infantry of the Line at 139,000, the Army Service Corps at 3,500, the Medical Staff Corps at 2,400; and the Ordnance Store, Armourers, and Ordnance Artificers Corps at 1,200; the remainder of the enrolled Regular troops being made up of the West India, Maltese, and other special corps raised locally for service in the Crown Colonies, Beyond these there is the great Indian native Army, and the Colonial Militia and Volunteers; and these with the home Militia and Volunteers, make up a grand total whose numbers have never been fully ascertained. All the Regular troops are now principally confined to the home country, India, and the great garrison stations in the Mediterranean and the Crown Colonies, Canada and Australia having no Imperial troops beyond the 1,500 in Nova Scotia, while in South Africa there are only a little more than 3,000 men.

The establishment of European troops in India is always large, and changes according to necessity, but just now it is not greater than it was a year ago, the 73,000 men at present under Sir Frederick Roberts being regarded as sufficient now that Burmah has been brought into a condition of comparative order. The Bengal command, as has always been the case, contains the greater part of the European garison, and there are now within its borders nearly 45,000 men, representing six regiments of Cavalry, 51 batteries of Artillery of all kinds, and 33 battalions of Infantry. The establishment of Bombay (including Aden) is much smaller, numbering less than 13,000, with only one Cavalry regiment, 21 batteries, and nine Infantry battalions. In Madras there are nearly 10,000 troops, and in Burmah (included in the Madras establishment) 5,500; the composition of the united 15,000 being three regiments of Cavalry, 16 batteries, and 11 battalions. Each of the three Presidencies has also its own company of Royal Engineers, the greater part of the engineering service being supplied by native troops.

At home, England and Wales absorb about 73,000 men, the number being nearly equal to those of a year ago, and these include the depots of the important departmental corps at Woolwich, Chatham and Aldershot. All are grouped in the great military districts, and consist of 12 regiments of Cavalry; six batteries of Horse Artillery, 27 of Field, one of Mountain, and 20 companies of Garrison; 22 companies of Engineers, besides the bridging and telegraph battalions; 42 battalions and 52 depots of Infantry; 30 companies of the Army Service Corps; and 12 divisions of the Medical Staff Corps; besides the smaller bodies of departmental troops. Aldershot, always the largest of the home military commands, has grown during the last twelve months, its 16,000 being 2,000 more than last year, and it is probable that its strength will become still greater during the coming year; the home (London) district contains 7,000 men; the southern (Portsmouth), nearly 9,000, the western, 7,000; the north-eastern, 5,600; the north-western over 4,000; the eastern, 6,000; the south-eastern (Dover), 7,400; the Thames (Chatham), 4,500; and the Woolwich, 6,000. The four Irish districts of Dublin, the Curragh, Belfast, and Cork take up 26,500 men, Belfast having a smaller proportion than the other districts. The principal items in Lord Wolseley's command are six Cavalry regiments, ten batteries and companies of Artillery, five companies of Engineers, and 26 battalions and eight depots of Infantry. Scotland never contains anything like the proportion of troops that are quartered in England and Ireland, and its present 4,000 men are rather below the total of last year, the principal items being one Cavalry regiment and two Infantry battalions. The Channel Islands have between them about 1,800 men, two battalions constituting the great bulk of the force. Altogether there are at home about 105,000 men.

In the Mediterranean, Gibraltar has some 5,000 men, of Infantry or Artillery chiefly: Malta over 8,000 and Cyprus 700, half a battalion of Infantry contributing the greater part of the number. In Egypt the total is nearly 3,400. In the rest of the British Empire, the West African settlements have been greatly reduced in Imperial military strength by the withdrawal of the coloured West-India troops; South Africa has a little more than 3,000; Mauritius, 700; Ceylon, 1,400; Nova Scotia, 1,500; Hongkong, 1,600; the Straits Settlements, nearly 1,400; Bermuda is reduced in the year from 2,000 to little more than 1,300 by the return of the Grenadier Battalion; and the strength in the West Indies will be increased to more than 3,000 by the return of the West India troops from Sierra Leone.

THE NATIONAL FINANCES.

Treasury statements for February 1st showed only moderate changes. The net cash balance has been reduced $3,205,668, but the disbursing officers' balances and agency accounts have been reduced $3,584,045. The interest bearing debt is the same as a month ago, and also the debt bearing no interest but used as currency, and a decrease of only $667,440 has occurred in the debt on which interest has ceased, and a decrease of $1,328,922 in the bank redemption fund, which has been reduced to $31,350,376. Having thus diminished its obligations of this character substantially $2,000,000 during the month of January, and its demand liabilities exclusive of certificates and notes about $3,600,000, the Treasury holds of gold and silver, less certificates and Treasury notes outstanding, $4,100,000 less than it held a month ago.

It will be realized from this brief statement that the changes in the debt proper have been insignificant. The changes that are of consequence do not concern the Treasury balance at all, but the kind of reserve held in comparison with the kind of notes outstanding. The following comparison may help to explain the curious transformation that is in progress:

	Jan. 1st	Feb. 1st
	$	$
Gold coin and bars held..	278,846,750	282,753,863
Silv. coin and bars held...	416,976,342	424,088,598
Cash held...	695,823,092	706,842,461
Certi's out, gold........	148,106,119	163,178,959
Silver Certif's out	320,817,568	320,138,367
Treas'y notes, gold........	75,296,057	76,038,319
Total	544,219,744	559,355,585
Net cash.....	151,603,348	147,486,876
Legal tenders out	333,767,351	330,097'313
Currency certificates	9,265,000	16,760,000
Bank notes..	168,427,433	167,173,607
Total paper currency.	1,055,679,528	1,073,386,505

The issue of notes has exceeded the addition to cash held in the Treasury, and the previous part of the statement, showing the cash held and the amount of certificates and notes issued against the cash held, discloses some curious changes. The increase of $15,100,000 in amount of gold certificates outstanding, while the amount of silver certificates outstanding has been reduced about as much as the amount of new Treasury notes has been increased, is a rather suggestive phenomenon. Taken in connection with the meeting of Congress, and the renewal of the discussion about silver coinage, it may indicate a disposition to place large amounts of unemployed money in a form less liable than any other to be disturbed by possible legislation or fear of legislation.

The last total given shows the amount of paper of all kinds in circulation outside the Treasury at the different dates, and indicates that the aggregate circulation has again greatly increased during the month of January. From the official statement just published, it appears that there has been a slight decrease in the gold coin in circulation outside the Treasury, a decrease of more than $2,100,000 in the circulation of standard silver dollars, and a decrease of $361,000 in the circulation of subsidiary silver, so that the aggregate of coin in circulation has been reduced from $533,102,201 January 1st to $530,465,623 February 1st, or $2,636,528 during the month. Notwithstanding the gold coinage in January the Treasury holds a little less gold coin, and notwithstanding the small coinage of silver, the decrease in that kind of circulation has been $2,100,000. The aggregate circulation of all kinds thus amounts to $1,603,855,128, against $1,588,781,729 on the first of January, an increase of about $15,000,000 during the month. A year ago the aggregate of circulation was 1,525 millions, but six months ago it was a little less than 1,500 millions, so that there has been an increase of about $104,000,000 in six months. It does not seem strange, in the light of this fact that unemployed money accumulates in enormous amounts in the New York banks, and the question may be askad what need there is for further increase of circulation since the movement of crops reached its maximum.—*N. York Commercial Bulletin.*

THE ENORMOUS CROPS OF THE UNITED STATES.

The estimates, by States and Territories, of area, product and value, of the United States for 1891, made by the statistician of the Department of Agriculture, have been given to the press. The crops of corn, wheat and oats, including all but two or three per cent. of the cereal aggregate, are reported. The total for corn has only been exceeded once. The wheat product is the largest ever grown in any country, and the yield per acre in the United States is the largest ever reported by the Department of Agriculture. The total for oats was slightly exceeded in 1889.

The aggregates are as follows:—

000 omitted

	Area	Product	Value
	acres.	Bushels.	$
Corn	76,204	2,060,154	836,439
Wheat.....	39,917	611,780	513,473
Oats.......	25,582	736,394	232,312

The aggregate of all cereals is the largest yet produced, and will supply 54 to 55 bushels per unit of population. The wheat supply is the largest ever reported in proportion to population, averaging 9.4 bushels to each person, against 9.2 for the largest previous crop, in 1884. The average value to the farmer is 40.6 cents for corn, 83.93 cents for wheat and 31.46 cents for oats. The value of wheat is greater than in any year since 1883, that of the short crop of 1888 alone excepted. The products are, of course, in measured bushels. — *American Exporter.*

AMERICAN HIGH-CLASS FURNITURE NOW THE FASHION

The following article, from the New York *Sun* will be read with interest:—

"It may interest housewives to know that it is not the elegant thing to speak of a piece of furniture as imported, or coming from the other side, as one speaks proudly of a gown or bonnet. People of means are now buying the furniture made from American designs in their own country. American designs are acknowledged the most artistic of the period, and yet there is neither an American school of design for this particular branch nor any marked characteristics by which it is distinguished. The American designer originates his idea, formulates a little outline of it, hands it over to his French and German draftsmen, who work it out with the patient and painstaking skill which the designer is in too much of a hurry to spend his precious time over. This design is executed, and when completed is sold to the connoisseur who appreciates the difference in the durability and beauty of the home product, and willingly pays the advanced price.

"One of the prominent designers, speaking on this subject the other day, pointed out two small inlaid tables standing together in his office, one of French and one of American make. 'The American table will last for ever, the French one will check in three months, owing to the change in climate,' he explained. 'The American designer has learned what he knows by hard knocks, not soft ones; by failures, not successes; by practical experiments, not theories; and he is not going to give the result of his life struggle for the stipend allowed to teachers of anything. He cancels his debt to the world by giving those that follow him the results of his experience in his work. Just now the American style is like the American people, cosmopolitan—its individuality has not crystalized, and yet it is unlike anything on the other side. We are studying the best the world has known in all periods, and from them are evoluting American art.'"

STEAM SUPPLANTED BY ELECTRICITY

Much has been said in regard to the substitution of the electric motor for the steam locomotive, and its feasibility has both been demonstrated and called in question on paper. Managers of steam railways have not heretofore had sufficient confidence in the practicability of the change to try the experiment, nor have our electrical manufacturing firms cared until recently to undertake the job on a guaranty that would be satisfactory to their customers. It was an event therefore of no small interest—the testing of a full-fledged electric switching locomotive—that called to Lynn, a few days ago, some sixty gentlemen, to witness the first invasion by electricity of a domain hitherto exclusively occupied by the steam locomotive.

The road that rendered this experiment possible is that owned by the Whitin Machine Co., of Whitinsville, Mass., who intend to employ the machine to carry their merchandise back and forth from the railway station to their works, a distance of 2½ miles, and the Company entrusted with the duty of designing and constructing the electric locomotive are responsible for the success which seems to have attended this the first attempt to really supplant the steam locomotive in its own territory by the electric motor.—*Electricity.*

COMPLETION OF A FLYING MACHINE.

The flying-machine which has long been in process of manufacture by Messrs. J. Shaw and Sons, engineers, Coventry, is now completed. Exactly a year ago Major Moore placed a contract in Shaw and Sons' hands for the manufacture of a machine according to the anatomy of the flying bat, but when the machine was nearly completed Major Moore, guided by extensive experiments in India, changed the model, and Shaw and Sons had to draw out a second estimate for a machine to be constructed on the lines of a flying fox. This is the machine that is now completed, after being six months in the course of manufacture. What particularly strikes the visitor on a first glance is the immense size of the wings, each one of which measures 17ft. 6in. by 8ft. 6in. in the widest part. For the present they are covered with calico, but when attached to the box and electric motors will have double-woven silk, specially prepared, stitched on; the silk will cover the box as well as the wings. A closer inspection shows how carefully the anatomy of the flying fox has been followed. There are seven bones, leading off with two of 8ft. and 10ft. long, and finishing with one of 12ft., and are manufactured of best weldless steel tubes, with brass-bushed joints; each joint and bearing has been forged, and this is the work that has delayed the completion of the machine. The tips of the wings are flexible. The head is formed of a loop of steel tubing, covered with silk, continuous without break from the body and wings. The tail is of tapering tubes, in prolongation of the side tubes or upper edges of the box which forms the body. Returning to the wings, which are of concave shape, each will have a sweep of 24ft., 12 up and 12 down, and are expected to make 50 strokes per minute. They are to be thoroughly tested, and when supported from the hinge only will have to bear a distributed dead load of 4lbs. per superficial foot when the machine is turned on its back. Each wing is 120lbs. in weight, and the machine, with the box and motors, is expected to turn the scale at 700lbs. The motors, which are being made in London, will be of three horse power. The box is 13ft. high by 3 ft. 6in. long, and at the base will be fixed small wheels, so that when the machine alights it will run along the ground. It is also intended to carry a parachute with the machine, to ensure a safe journey to the earth if the silk should become torn or the motor fail to act. The total cost of the machine will be about £1,000. It has not yet been decided when the initial trial will take place. An application has been received from Birmingham for the machine to be exhibited in that city.

TERRORITE

The variety of projectiles and explosives against a single discharge of which no ironclad could maintain its integrity has become so great that the question seems to arise whether it is worth while to build any more ironclads or steel cruisers or to squander money on armor plate. If it has practically no resisting power—and that seems to be the logical inference from the accounts given of the new agents of destruction—the expense of constructing it might as well be saved. One of the latest instances of irresistible force is called the terrorite; a very felicitous name, if what is claimed for it is matter of fact. It is four times as powerful as dynamite, safer to handle than gunpowder, is not exploded by anything short of a white-hot temperature, and retains its virtue for an indefinite period.

These, at least, are the qualities imputed to it, and if the statement is even approximately correct, there seem to be but two practicable courses where it is brought into play—to retreat with all convenient speed, or to fight terrorite with its equivalent. So fertile is invention in that line that we shall probably not have long to wait for a new fulminate by the side of which terrorite will be painfully futile and inert. An increasing difficulty in the case is that of finding an expressive name for the article, the list of strictly pertinent titles being now well-nigh exhausted.—*American Exporter.*

THE B. A. CRICKET CLUB.

16th March 1892.

Dear STANDARD,

Many of your readers will doubtless be interested in hearing what occurred at yesterday's meeting.

The members turned up in full force, and those in favour of not having an open lawn tennis tournament carried their proposition by a slight majority.

They had evidently been whipped in from all quarters, a number of members simply voting because they had been asked to, perhaps not taking into consideration the fairness of the measure. Praise is in nowise due to the supposed members who published a bill poster handed to each one as he entered, telling him to be true and loyal to cricket, besides other expressions in decidedly bad taste. This of course helped to make the question purely a fight between cricketers and Lawn Tennis members. The cricketing members should have remembered that the club, embracing L. Tennis, has induced members, must I say it, to join under false pretences, it being generally understood in civilised countries that any L. Tennis club or club embracing L. Tennis should give a tournament, and that that tournament be an open one.

This view not being prevalent with the cricketers, it might perhaps be more equitable for the new committee to return subscriptions to those wishing to retire, making it a cricket club "pur et simple."

Taking it all in all, it must be confessed that it was a great pity the motion was ever mooted, as dissension is sure to follow, and then, as happens in every English club out here, a general smash up is the result.

Yours etc.,
About to resign.

THE PRESBYTERIAN CHURCH IN THE RIVER PLATE.

Mr Editor,

Referring to my previous remarks on the above subject, and to "Fairplay's" strictures thereon, probably the "St. John's Church" mentioned in Mr. Flemings' article is not the church usually known by that name here, but some branch of St. Andrew's Scotch Church, in which case, of course, some of my remarks would not be appropriate or pertinent to the question.

H.

RAILWAY ITEMS.

The Board of Public Works have reported on the plans presented by the Transandine Railway for the tracing of the line from kil. 111 to 130. The Board urge the approval of the plans numbered 66 and 67.

The London *Money* says: The decline in Great Southern within the past two weeks amounts to some twenty points, or, if capitalised, to a shrinkage of just a round million. The chairman's sanguine views as expressed at the last meeting have been singularly erroneous, and the sequel shows that a company does not gain by having an ex-consul at the head of its affairs instead of a business man. No enterprise can possibly make headway in the face of a gold premium of 280 per cent, and it can surprise no onlooker should the price, which last year stood at 169, fall away until a decline of 50 per cent. is established. Even when the stock reaches 80, investors will not be any too anxious to possess themselves of it.

EDITOR'S TABLE.

Long life to all our Irish friends, subscribers and readers! May they see as many happy returns of this, their National Festival, as they can desire.

There was very little said or done yesterday in any quarter to dispel the general calm in events. People look to the meeting of Congress, now only six weeks off, to rouse things up a bit. The mad dog hunt in Calle Florida yesterday morning at 4 p.m. gave that aristocratic neighbourhood a shock. It took half a dozen shots and a long chase to kill the dog, and the furious galloping and shouting of a score of policemen made many people think that a revolution had broken out.

The ladies and gentlemen, active members of the British Choral Union and German Singing Academy, who want to take part in the next concert, are reminded hereby that the concert is to take place on April the 4th, and that Friday the 25th inst being a holiday, there will be only two more ordinary rehearsals. The aforesaid ladies and gentlemen are therefore earnestly requested not to miss these two rehearsals, as this is absolutely necessary if a good result is to be obtained.

A Special General Meeting of Members of the B. A. Cricket Club was held on Tuesday evening to settle the vexed question as to whether a Lawn Tennis Tournament should be held, the same being open to members of other Cricket Clubs in this and the adjoining Republics. A programme had been issued by the Sub-Committee framed on these lines, as the three donors of prizes had stipulated that the competition should be open to other clubs. Some dissentient members of the Club objected to the proceeding of the Committee and requested that a Special Meeting should be called. The result is that the action of the Committee has been condemned by a majority of two in a meeting of 90 members, and as a sequel the President, Vice-President and Committee have resigned "en masse", and the members are summoned for a Special Meeting on 28. March, to elect a new governing body. At the meeting several members were profuse in declaring their affection for the ladies, and disclaimed any intention to exclude them from the ground. Lawn Tennis will always be subordinate to Cricket; but it might be well if the cricketing members paid more attention to their practice, which of late has been of an infinitesimal amount. The captain, Mr. James Gifford, should look to this and try to bring out latent talent. The circular distributed by the anti-Lady party during the meeting was in shocking taste, and is severely commented on in all English circles.

The gentlemen who "run" the Chalet in Plaza San Martin have provided an additional amusement for their patrons, and the first of a series of firework displays will take place to-night, at 8 p.m.

The proprietor of the Creamery means to become the Worth of Buenos Ayres; and it is worth the while of his lady patrons to visit the dress-making establishment he has added to his Ladies' department.

An avaricious grocer got gloriously stuck the other day by buying for $2, from a seedy customer, 100 packages of prime cigarettes which he strongly suspected to have been stolen. They weren't; but they were made of the best sawdust to be found in the city.

It is with deep regret we record in another column the death of Mr. Groves, who for many years held responsible positions on the Buenos Ayres Great Southern Railway, and latterly as Traffic Superintendent of the Argentine Great Western. We deeply sympathise with his widow and family.

Another nut for the humane Zoos to crack. At Cebollati, in Banda Oriental, last Sunday week there was a race between three bulls—Ratonero, Guerrillero and Imposible—mounted by experienced jockeys. The distance was six squares, and everything was done in as correct racing form as if it was a horse race at Palermo. Two thousand enthusiastic spectators lined the course and cheered frantically for the winner, Imposible, who threw his jockey when half round the course, but continued by himself and passed the post first, an easy winner. This is more than a riderless horse would have done. Another bull race followed, and still another next day. The animals are stated by a Montevidean paper to have shown themselves as tame as horses; in fact there is a smell of rat about the whole thing, although our colleague seems perfectly serious. Perhaps it is a mild joke to draw the badgers—we mean the Zoos.

Mexico, the home of so many textile fibres, is said to produce another one, hitherto unknown. According to an American engineer the Quimbombo not only yields an excellent fibre, but one which can be gathered easily, and at small expense. Quimbombo is said to differ materially from cotton, hemp, or ramie, in that the envelope is not attached to the fibre, which is cream in color and nearly as lustrous as silk.

Chile is said to have more poets in proportion to her population than any other nation under the sun. What is more singular though, is that alleged poets—commonly known as "poetasters," are few and far between.

Archibald Forbes, the great British war correspondent, has two elaborate equipments, one for hot, the other for cold regions, and passports for every country on the globe, and he holds himself at the command of the editor-in-chief at all hours.

The pigeon-shooting fraternity have made the Lord Mayor a tempting offer, viz; that if the Municipality allow them to resume their favourite sport at Palermo, they will send a minimum of 500 pigeons to the city hospitals on each shooting day. This would be a prodigious treat for the patients; and the Municipality is so cruelly hard up that the proposal may possibly be entertained by the City Fathers and bring them into collision with the Zoos, who seem to have a lot of work on hands now at all points of the compass.

We are sorry to hear that the Lord Mayor is ill and forced to take some days' rest. Alderman Dr. Montes de Oca will take his place till he is himself again.

Don't forget the Band of Hope concert to-night at 8 p.m. The programme is most attractive.

We have a favour to ask of the Post Master General, and that is, that the hour of closing the mails for abroad should be made known two days before the sailing of the English, French and Italian packets. Yesterday we sent the public to the P. O. at noon, one hour earlier than necessary, bearing in mind the notice issued in January to the effect that the closing hour for mails leaving La Plata Port would in future be 10 a.m., and for those from the Darsena noon. As the Thames sailed from the Outer Roads, being in quarantine, we inferred that the hour would be the same as if she were a clean ship and had entered the Darsena, whereas it was extended to 1 p.m. La Plata is only an hour and a half from town, and we really fail to see how it can be necessary to close the bags at such an early hour as 10 a.m. The best way would be to make arrangements to have the same closing hour for all mails, say noon. This ought to be feasible, and we beg of the Post Master General to consider the matter. The present system is most inconvenient, owing to the earliness of and difference in the hours.

We are requested by Captain Thos Harrold, private Secretary of Major Barritt, to say that the latter will conduct Special Meetings in Chascomus F. C. S. (Colegio Ingles) Saturday, Sunday and Monday, the 19th., 20th., and 21st. of March, and will visit other towns on the Southern Line, he will be glad to confer with Estancieros in reference to any work-people they require. It is the Major's intention to arrange with the Estancieros to take those poor fellows who swarm in the streets of Buenos Ayres in winter to work for them, even if it is only for food and lodgings until the summer months come round, when there is work for all. During the winter months the Italians leave the country, returning for the busy season, whilst our English poor remain in the country, have to suffer great privations, and are a continual burden on the Salvation Army and Benevolent Society.

There is a depressing rumour from Montevideo of a hitch in the much-desired new Bank business. Our neighbours ought to be "clean sick" of banking, converting and liquidating schemes, of which they have had such a surfeit for the past two years.

The Zoos at Montevideo have scored a victory. Through their vigorous interference the Government put its foot on the intended fight between an elephant and a bull which some barbarian empresario had announced.

The following dish was in the usually excellent "menu" of the Brunswick restaurant yesterday. We asked for it, but neither the proprietor, the waiters, nor the "chef de cuisine" could tell what it was. We told them, and now we want to know if any of our readers who have been in Persia or Northern India can tell us what "No Waiter Bis a uosaɹd ɯopuᴉʍ take mono wouiɟoɟ oddɐBil" is.

The yellow fever patient, a passenger, of the Maskelyne in gone. He expired on board the Singapore floating hospital. This is the second passenger that has fallen a victim to the madness or rather greed of the Companies in calling at Rio. One short month ago these two infortunates left England in high hope of success in a new land. Now a handful of ashes is all that remains of them.

Calle Florida seems suddenly to have recovered its pristine attractions for the "beau monde," who have all returned to town from camp and seaside. The crowd of promenaders on Tuesday night was enormous, but the street is so abominably lighted that half the beauty and toilettes of the fair sex is lost on the male beholder. Mr Whittaker's inventien, which made people think that the gas lamps were electric lights, at the opening of the Odeon Theatre is very badly wanted in Calle Florida.

In answer to Q. we beg to say that the Irish Orphanage Raffle comes off, we believe, to-day. As regards an English butcher in town, we know of none. There was one in Calle Lavalle some years ago, and also an English Butchery Company; but the crisis first roasted and then made hash of them both.

In answer to "Old Subscriber's" inquiry in yesterday's issue, we are informed that the raffle of the Baradero estancia has been postponed until April 1st.

The bakers of the city are putting on the screws so tight that the cry for the establishment of Municipal bakeries is increasing. The Municipal meat stalls have eased the pressure on the poorer orders, and Municipal bakeries would do the same, perhaps.

"According to the French painter Bonnat, there are no more celebrities left in France for him to paint, but M. Renan, so to keep his hand in, he will contribute the likeness of the celebrated dreamer and thinker to next year's salon. Renan is as ugly as Socrates, Scarron, or Wilkes, and he has himself written, that "forgetfulness and silence, are the punishments inflicted on those found ugly, in the promenade across life." But Renan was never more to the front than at present, even his arch enemy, de Goucourt will admit this. Renan explains, that it must be out of pity for his gout suffering, that public opinion is less down on him. This season when he visited his native heath, at Freguier, he was entertained at a banquet; formerly when the villagers encountered him in the street, they made the sign of the cross."

THE FRIEND OF MAN.

This title, the friend of man, was said to have been arrogated to himself by the elder Mirabeau, a famous Frenchman, and has been applied by writers to other personages. Now, whilst, our modesty would prevent our making any exclusive and extravagant claim, and our diffidence forbids us, to sound abroad our own praises, still, we claim to have been in the truest sense the friends of man; no man can do, without food, and no man should do without a Pyjama Suit; and yet until we (The English) introduced our special Pyjamas, the articles that were sold under that name were little better than apologies for the garments they purported to represent—"The Special Pyjamas" are sold only at

PACIFIC STEAM NAVIGATION COMPANY.
Fortnightly Line of Steamers.

The Steamers of this Company will sail in the following order :—

For Europe from Montevideo
SORATA, Capt. Adey, sails on March 24th for Rio Janeiro, Bahia, Pernambuco, Lisbon, Bordeaux, Plymouth and Liverpool.
IBERIA, Capt. G. Massey, sails on April 1st for Rio de Janeiro, Bahia Pernambuco, Lisbon, Bordeaux, Plymouth and Liverpool.

For the Pacific from Montevideo
POTOSI, Capt. H W Hayes, sails on March 16th for Punta Arenas, Coronel, Talcahuano and Valparaiso.
GALICIA, Capt. Cooper sails on March 28th for Puntas Arenas, Coronel, Talcahuano, and Valparaiso.

Table wine is granted to all classes of Passengers.
Steamers for Europe will touch at Plymouth to land Passengers only.
Passengers must secure their tickets before 3 p.m. previous to the day of sailing.
Passengers booked through to New York, U.S.A., in connection with the magnificent steamers of the Cunard Line, sailing from Liverpool.
Steamers for the West Coast of South America are in connection with others of the same Company which trade up the Pacific Coast as far as Panama, and take Mails, Passengers, Parcels, Specie and cargo for Punta Arenas, Valparaiso and West Coast ports.
The steamers are illuminated with electric light, are fitted with all recent improvements for the accommodation of Passengers and carry a French Chef de cuisine.
In the event of detention at Montevideo, through bad weather etc., the Company will pay the ordinary Hotel expenses of passengers of all classes during such detention.

BEWARE OF WORTHLESS AND FRAUDULENT IMITATIONS!

Hayward's Paste Dip
For the CURE of SCAB
AND DESTRUCTION OF ALL FILTH INFESTING THE SKIN OF SHEEP AND LAMBS.

Time, Labour and Money saved by its use.

Messrs. Moore & Tudor, Maipu 163, B. Aires.
Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.

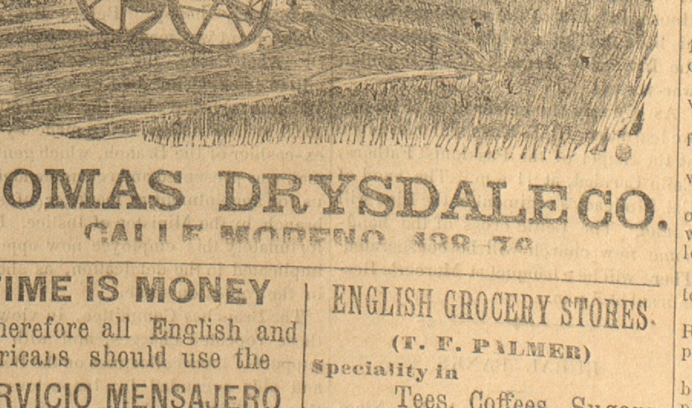

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Wednesday, March 16th.
There was a dead-lock in the gold market this morning, but the price of the ounce ruled firm at $56. About ten thousand ounces changed hands for cash: the price opened at $56, fell to 55.90, and closed hard at 56, say 244 % premium. Sovereigns were very dull: only three hundred were sold at $17.35 to 17.39, closing rate, say 245 % premium. The speculation was at an utter stand-still and the outside market kept aloof, waiting for eventualities.
Stocks and shares were also dull. Patriotic Bonds were weak at 60.20. Some Agricola-Comercial Bank shares changed hand at 14. Two hundred Credito Real shares were put up at 25. Shares of the Spanish Bank rose and closed firm at 84. National Bank shares advanced one point, to 21. La Plata Cedulas were firm.
The exchange market was quiet; business was insignificant, in view of the departure of the mail. Discounts continue difficult.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—
South American Ounces—
For cash.... 9,614 at 56-55.90-56
Sovereigns—
For cash.... £300 at 17.35-38-39
Patriotic Bonds—
For cash.. 40,400 at 60-60.10-20
Agricola Comercial—
For cash.. 100 at 14
Credito Real Shares—
For cash.... 200 at 25
Spanish Bank Shares—
For cash.... 150 at 83-84
Catalinas Mole—
For cash.... 300 at 7.20-30
National Bank Shares—
For cash.... 200 at 21
La Edificadora—
March 31.... 100 at 80
Provincial Cedulas—
For cash..K 5,600 at 29½
For cash..L 8,300 at 29½
For cash..M 16,900 at 29¼
For cash..N 69,550 at 29.40-50-60-50
For cash..O 11,000 at 29½
For cash..P 13,000 at 29½
The crisis in the Caja de Conversion threatens to culminate in the resignation of Messrs. Victor Martinez, Chas and Arezo. Affairs both in the Caja and National Bank may become very unpleasant; the note of Messrs. Unzué, Salaberria, Demarchi, and Devoto, which we publish in another column, is a king of opening of hostilities, the proportions of which may spread to the Cabinet: already in the market at large there is a very disagreeable feeling, and there is a general conviction that the Government is getting into a mess. If the President study the voice of public opinion as reflected by the Press, he will see that he is going wrong.
At the meeting of the shareholders of the Catalinas Wharf Company it was resolved to issue over one million Obligaciones to build a produce market on the lands of the Company in the Boca. The cost of erecting the market is estimated by engineer Stavilius at $1,661,787 m/n, but the materials of the old wharf which is being demolished are expected to give a value of 243,630 dollars, which can be applied to the building of the produce market.
We hear that the threshing machine manufactured in this country by Messrs. Eigendorf and Garret is doing excellent work at Sauce Corto. The report is that of a disinterested party who went out expressly to see the machine and make notes. The machine was handicapped at first, on account of the engine (of French manufacture) not having sufficient power to drive it at the proper speed. This is now remedied, and the result is all that could be desired. The cleaning of the grain is particularly good, and on timing the machine it was found it was threshing at the rate of about 48 sacks an hour.
The Chief of the Land and Colonies Office has appealed to the Minister of the Interior to issue a decree authorizing the Land Office to hand over the Chaco lands sold at auction on the 29th Dec. 1887 to the puchasers. Owing to some red tape this delivery of lands has been dragging for years.
Messrs A. Shank and Oswell were welcomed to-day On'Change on their return from Europe. They both came out in the Lamport and Holt steamer Wordsworth, which is now snugly moored in the Madero docks.
In another column we publish a notice of the Old Gas Company calling the annual meeting of shareholders. It is said that a dividend will be declared.
The Montevidean papers are publishing some scandalous disclosures about the management of the National Bank of Uruguay. The *Epoca* says that the President of the Republic is heavily indebted to the Bank.
Advices from Antwerp state that cargoes of Argentine wheat arrived in that port in anything but good condition; they were sold at 19½ fcs. This quotation makes about $10.60 here, including expenses.
The Pacific steamer Sorata arrived at and left Coronel on the 14th; she is expected to arrive at Montevideo on the 24th, and is posted to leave same day for Europe.
The Maskelyne will leave for Europe on the 20th.
Telegrams from Antwerp announce that the public sales of River Plate wools began to-day, with no change in prices. One thousand bales were sold and one thousand withdrawn. The telegram is satisfactory so far, as a fall in prices was apprehended.
London telegrams quote National Cedulas A at 25½ and La Plata P at 8½; Argentine 5 % bonds are at 65.
It is said that the cause of the crisis in the Caja de Conversion is the issue of fractional currency by the Banco de la Nacion Argentina. The Bank has no right to issue unless through the Caja de Conversion.
The wool markets showed no improvement this morning. Arrivals were small and few and far between.
Messrs. Delfino have chartered :—
German steamer Eberstein to load 1200 tons of wheat for St. Vincent and orders.
British steamer Annondale, 1800 tons wheat for Antwerp.
Do. Sam Handford, 2300 tons of wheat for St. Vincent and orders.
Italian do. Giulio Mazzini, 2,200 tons wheat for St. Vincent and orders.
The Italian steamer Caffaro will leave on the 18th for Barcelona and Genoa with 1,300 tons of wheat, 2250 casks tallow and 10,000 dry hides.
The Wandle and Muriel are engaged to load wheat up-river.
The Italian steamer Andrea Doria left Rio yesterday for the Plate with 300 passengers and 1700 tons of cargo.
The Platense steamer Pomona has been sold for £6,000; she will be placed on the route between Rosario and Rio, calling here and at the Mount.
Mr. J. Van Deurs, of the firm of Ashworth & Co., took leave of his legion of friends to-day. He leaves in the R.M.S. Thames for Europe, and expects to be back before the end of the year.
The exchange market, though very dull, weakened this afternoon. The market closed at 5.06 fcs. on Paris, 5.07 fcs. on France payable in Paris, and 48¾d. on London, private paper.
The gold market ruled very firm at the second ring; about five thousand ounces were sold for to-morrow; the

price opened at $56.10 and closed at $56.30, say 246% premium. Nine hundred sovereigns were sold; the price opened at $17.40 and closed at $17.43, say 245¼% premium. La Plata Cedulas were active and steady.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

South American Ounces—
March 17.... 4,500 at 56.10-20-30.
Sovereigns—
March 17.. £900 at 17.40-43.
Patriotic Bonds—
March 17.. 2,000 at 60.20-00.
Credito Real—
March 17.... 100 at 26.
Catalinas Moles—
March 17.... 1200 at 7.30-20-
Spanish Bank—
March 16.... 70 at 84
Provincial Hypothecary Cedulas—
March 17 ...G 39,550 at 29.40
March 17 ..K 10,000 at 29.50.
March 17 ..J 5,000 at 30.
March 17 ...I 10,000 at 30.50.
March 17 ..L 10,000 at 29.50.
March 17...M 12,400 at 29.60-50.
March 17..N 10,000 at 29 50-00.
March 17..O 85,000 at 29..60-50
March 17..P 5,000 at 29.50-00

Bunstnig, W Kann, R Carreo, Jose Gil, Barros Magueta, Anto. and Angel Gondari, Capt. Knight (12th Lancers), Mesdames Van Deurs, Mrs Gremont, Mrs Kuhn, E Gonzalez, Elena Martel, Mdlles Adela de Valdez, A Rosas de Valdez.

Bank of the Nation—From April 7th to 31st the Conversion Office will issue the first series of shares of the Bank for $10,000,000.

The president of the National Bank, in a letter to the Minister of Finance, says that the Bank owes the Conversion Office $12,668,000 m/n, the Bank of the Nation, in respect of the judicial deposits, more than eleven millions, to the National Treasury $68,334,000 m/n and $2,199,139 gold, besides $90,000,000 m/n for the notes in circulation. There is also a very large sum owing to private depositors.

The returns of the Custom House to-day amounted to

Imports		$240,810
Exports		4,521
		$245,342
	Gold.	$ m/n.
Returns of the month up to date	—	3,588,614
Same time last year	—	1,096,542
Difference in favor of March 1891	—	—
Difference in favor of March 1892	—	2,492,071
Receipts since Jan. 1	—	16,751,793
Same period of last year	4,593	7,876,352
Difference in favour 1891.	4,593	
Difference in favor of 1892	—	8,885,440

The Minister of Finance has fixed the rate of gold at 335 for payment of Customs dues.

Mr. N. Calvo sold to-day at the Corrales:—

14 steers, buena carne, at $36 per head; buyer Sr. Lopez.

86 do do at $32 per head.

The news from Montevideo to-day was not favorable to the financial bills of the Government. Telegrams announce that violent opposition is expected from several Senators, and the disclosures made by the *Epoca* with regard to the mismanagement of the National Bank of Uruguay have increased the difficulties with which the bills have to contend. At all events, some sweeping changes will be made in the Bills before they can emerge successfully from the Senate.

The San Fernando and Tigre Customs officers have pounced upon $20,000 gold worth of Havana cigars, which some enterprising party attempted to smuggle in as Tigre peaches in large baskets.

Prices at the Corrales to-day—
Novillos—
Gords mestizos $47 41.50

HORSFORDS PHOSPHATIC BAKING POWDER

Ordinary Baking Powders are made either of Cream Tartar or Alum, Cream Tartar powders leave in the bread Rochelle Salts, a continuous use of which is not desirable. Alum powders are condemned by physicians as unhealthful. Neither of these powders add anything of nutritive value to the bread, and both produce, biscuit, cake, etc., that are dry and tasteless when cold. Professor Horsford's Phosphatic Baking Powder leaves in the Bread etc., the life sustaining Phosphates of which the flour is deprived in the process of bolting, and which are necessary to maintain health.

VICTORIA CONVALESCENT HOME

Sunnyside, near Lavellol.
F. C. del Sud.

Hon. Medical Officer—
Dr. MACKERN, Tucuman 571.
Superintendent—
Mr. CARSON.

Patients are received on Tuesdays and Fridays, and a carriage will be at Lomas Station to meet the train which leaves Plaza Constitucion at 4.30 p.m., so as to convey them and their luggage to the Home.

Private patients pay $5 per day; ordinary patients $2 per day.

Recommendations for free orders can be obtained from any member of the Committee, but applicants must prove that they have no means wherewith to meet the ordinary charges of the Home.

To obtain the order for admission, a recommendation must be taken to the Hon Medical Officer, accompanied by a note from the patient's doctor certifying that it is a case coming within the rules of the Institution.

Visitors are allowed to see their friends on Wednesdays and Sundays from 1 to 5 p.m., and for their convenience a Brake belonging to the Institution will on every Sunday afternoon be waiting the arrival of the 2.15 train at Lomas, (train leaves Plasa Constitucion at 1.45 p m.) and take them to the Home and back free of charge.

Subscriptions and donations in aid of the funds of the Home will be thankfully received by the Honorary Treasurer.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

To the Public.

Every kind of printing can be done promptly and cheaply in the Imprenta Helvetica, Calle Corrientes 2322.

Orders received by the foreman of the «Standard.»

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.

Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

Only Address in Buenos Ayres — Venezuela 1062.

CANNON'S Sheep Dip

which obtained the only Prize medal at the Exhibition in Edinburgh 1890, and the eulogiums of all the Agricultural Press at the Royal Agricultural Show at Doncaster in 1891, where were exhibited Skins dressed with Cannon's Dip and those undressed showing a difference in favor of over 25/ per dozen in favor of Cannon's Fluid. These Skins will be exhibited at the Feria of the Sociedad Rural at Dolores, Chascomus, Balcarce, Azul etc.

This Dip has the following advantages:—It never stains the wool, but augments the growth and ensures the highest value in the market. It is easy to use, being readily soluble in cold water, and hand curing is rarely required after.

COLONY BALLESTEROS

Railway Station Alejo Ledesma of the Railroad

Ferro-carril Sud de Santa Fe y Cordoba

The soil has been thoroughly examined by the experienced Farmers, and found to be extremely fit for the cultivation of wheat, corn, oat, barley and alfalfa, also for all kinds of produces of the field, vegetables and culture of trees.

The land lays throughout high, and 5 meter deep, exist the most excellent drinking water, free from each kind of noxious salt contents. The clima for agriculture and cattle breeding is equal favorable, and as the colony is situated on the latitude between Buenos Ayres and Rosario, there cannot be found a healthyer and more agreeable place

The price of the ground in consideration of the favorable situation and the excellent fertility is exceedingly cheep, and the payments most advantageous because there are no charges of interests for payments on time.

The sale of the produces is done by shipping them to the Port of Villa Constitucion ($7 freight per ton) and the prices are more or less the same as paid in Buenos Ayres.

Everyone who likes to inspect the land will be received by arrival in Alejo Ledesma by the Administrators, Messrs. Magubn J. Bothlingk, who will give all the necessary informations.

For further particulars apply to the proprietors Herzfeld and Schweitzer, Buenos Ayres, Calle San Martin 140, and at Juan Milich, Villa Constitucion.
